

Class Descriptions as of April 27, 2009

Attendees will be provided a packet with times and locations of classes offered.

1	Class Title: 24 Hour Pack & SAR Team Survival	Instructor: John & Kathleen Carlson
Class Length: 2 hours		Offered: Sat 10-12 & 1-3
Track: General - WAC		Interest: Beginner as well as Experienced members
Class Description: The "24 Hour SAR Pack" part of these classes focuses on the equipment and skills used in SAR operations. "SAR Team Survival" deals with individual skills and equipment in the team environment.		

2	Class Title: Rough Land Evacuation	Instructor: Scott & Jennifer Larson
Class Length: 2 hours		Offered: Sat 3-5, Sun 8-10
Track: General - WAC		Interest: Beginner as well as Experienced members
Class Description: Thoughts, ideas, and logistics for evacuation of a SAR patient. This is a hands on exercise.		

3	Class Title: ICS 100	Instructor: Tim Brodt
Class Length: 2 hours		Offered: Fri 1-3, Sat 8-10 & 3-5, Sun 8-10 & 10-12
Track: General - WAC		Interest: Beginner and those w/o ICS 100 certification
Class Description: Introduction to the Incident Command System. This course describes the history, features and principles, and organizational structure of the Incident Command System. It also explains the relationships between ICS and the National Incident Management System (NIMS).		

4	Class Title: Natures Compass	Instructor: Don Witke
Class Length: 2 hours		Offered: Sat 8-10 & 10-12 & 1-3
Track: General – Intermediate degree		Interest: Beginner as well as Experienced members
Class Description: Learn to use your watch as a compass, tell time and direction from the sun, locate the North Star and learn its uses, discover how plants, soils, wind, topography, temperature, humidity and wildlife can give you direction clues, learn to interpret maps symbols and much more.		

5	Class Title: Survival Psychology	Instructor: Don Witke
Class Length: 2 hours		Offered: Sun 10-12
Track: General – Intermediate degree		Interest: Beginner as well as Experienced members
Class Description: Explore the mental aspects of survival, develop a positive mental attitude, program you mind to succeed, control fear and imagination, learn to handle stress, recognize body temperature tolerances, become familiar with cold, heat and dehydration indicators and more.		

6	Class Title: Man Tracking (Basic)	Instructor: Joel Hardin & Sharon Ward
Class Length: 3 hours		Offered: Sat 9-12 & 1:30-4:30
Track: General		Interest: Beginner as well as Experienced members
Class Description: This class will introduce you to art of Man Tracking. This is a highly recommended training class for those people wanting to learn how to cut sign and learn to track.		
AV Equipment needed: Overhead, white board & Power Point Projector, with speakers		

7	Class Title: NW Weather	Instructor: Pending
Class Length: 1 hour		Offered: Sat 11-12 & 1-2

Track: General	Interest: Beginner as well as Experienced members
Class Description: A briefing on the challenges forecasting weather in the Pacific Northwest as it relates to wilderness search and rescue. Overview of the dynamics that drive our unique weather patterns and open dialogue and Q & A.	

8	Class Title: Partnering with the Media	Instructor: Richard Thompson – KIRO
Class Length: 1 hour		Offered: Sat 10-11 & 2-3
Track: General		Interest: Beginner as well as Experienced members
Class Description: Love 'em or hate 'em, reporters are a fact of life. This class will help you understand the media. What are reporters looking for when they show up on the scene? How can you help them and more importantly how can they help you? Whether you're a seasoned veteran or new SAR member, bring your horror stories and your success stories and join us for a no holds barred discussion with a goal of understanding and working with each other better than ever before.		

9	Class Title: All Hazard Evacuations	Instructor: Maria Agnew – Chelan Co
Class Length: 2 hours		Offered: Sat 10-12, Sun 9-11
Track: General / Management		Interest: Beginner as well as Experienced members
Class Description: Lessons learned on Evacuations dealing specifically with Wildland fire, Tactics and tracking for evacuations, to include county, state and federal declarations. Ideal for those in leadership roles responsible for public safety, PIO, or any position effecting evacuations.		

10	Class Title: Temperature Related Emergencies	Instructor: John Lieberherr
Class Length: 1 hour		Offered: Fri 1-2, Sat 9-10, Sun 1-2
Track: General		Interest: Beginner as well as Experienced members
Class Description: Hypo and Hyper – thermia in the Wilderness, causes, effects, and treatment for temperature related emergencies in the wilderness.		

11	Class Title: Mountain Bikes in SAR – Round Table	Instructor: Thom Batty
Class Length: 1		Offered: Sat 8PM
Track: General		Interest: Mountain Bike personnel
Class Description: Round table to discuss how they use their bikes, how to train and other Mt Bike topics.		

12	Class Title: Map & Compass	Instructor: Brock Shero – DNR
Class Length: 3 hours		Offered: Fri 9-12, Sat 9-12
Track: General – WAC		Interest: Beginner as well as Experienced members
AV Equipment needed: Handouts		

13	Class Title: GPS for SAR	Instructor: Bob Boyd, Cheryl Dreverky, Bill Davis, Steve Allen, Brent Allen
Class Length: 2 ½ hours		Offered: Fri 2-5, Sat 2-5
Track: General		Interest: Beginner as well as Experienced members
Class Description: A 2 ½ hour class built around the usage of GPS on SAR missions. Will include field work, students must bring their own GPS to class.		

14	Class Title: Cell phone GPS overview	Instructor: Dean Anderson & Ken Norman – Sprint Nextel
Class Length: 1 hour		Offered: Sat 11-12 & 1-2
Track: General		Interest: Beginner as well as Experienced members
Class Description: This presentation will discuss how cell phone GPS works, what technology is used and what associated services are available.		

15	Class Title: Evidence Search	Instructor: Lewis County
Class Length: 1 hour		Offered: Fri 8-9 & 4-5, Sat 8-9 & 4-5, Sun 8-9
Track: General - WAC		Interest: Beginner as well as Experienced members
Class Description: Instructor will cover search techniques; discuss what evidence is, and how it is collected.		

16	Class Title: Crime Scenes	Instructor: Dusty Breen & Jim Mitchell
Class Length: 1 hour		Offered: Fri 9-10, Sat 9-10
Track: General		Interest: Beginner as well as Experienced members
Class Description: Students will learn what to do if they are involved in a search that becomes a crime scene. Attorney will cover information on what would be asked if needed to testify.		

17	Class Title: Human Bone Identification	Instructor: Susan de Caen
Class Length: 2 hours		Offered: Fri 10-12, Sat 10-12, Sun 9-11
Track: General		Interest: Beginner as well as Experienced members
Class Description: Search and Rescue workers, crime scene investigators, forensic anthropologists all encounter skeletal materials in the course of their work. One of the primary questions they seek to answer is, "are these bones human?" In this two hour workshop, participants will take a hands-on approach in differentiating human from non-human skeletal remains. The program is instructed by Susan de Caen, an archaeological outreach educator from the University of Calgary. Each program is limited to 30 participants so come early to get a seat.		

18	Class Title: Communications – use of technology	Instructor: Mountain Wave
Class Length: 1 hour		Offered: Sat 10-11, Sun 10-11
Track: General		Interest: Beginner as well as Experienced members
Class Description: Unknown		
AV Equipment needed:		

19	Class Title: Amateur Radio in Emergency Services	Instructor: Randy Greeley & Grover Laseke
Class Length: 1 ½ hours		Offered: Fri 4-5:30, Sat 9-10:30, Sun 8-9:30
Track: Communications		Interest: Beginner as well as Experienced members
Class Description: Discuss roles Amateur Radio can perform during: EOC/Law Enforcement/SAR activations – ELT – Project Lifesaver – Served Agencies.		

20	Class Title: Amateur Radio/Remote Operations	Instructor: Ralph Javins
Class Length: 1 hour		Offered: Fri 3-4, Sat 8-9, Sun 9-10
Track: Communications		Interest: Beginner as well as Experienced members

Class Description: The complete radio relay station in your pack.	
---	--

21	Class Title: Wildlife Dangers	Instructor: Ted Holden & Bruce Richards – Dept of Fish & Wildlife
Class Length: 1 hour		Offered: Fri 10-11 & 3-4, Sat 10-11 & 3-4
Track: General		Interest: Beginner as well as Experienced members
Class Description: This presentation will discuss what wildlife you may encounter while outdoors, they will also bring one of their Karelian Bear dogs to show and talk about.		

22	Class Title: Drug Labs & Hazmat Sites	Instructor: Rob Snaza
Class Length: 1 hour		Offered: Fri 11-12 & 2-3, Sat 11-12 & 2-3
Track: General		Interest: Beginner as well as Experienced members
Class Description: Students will learn about Meth Labs, chemicals used, and what a dump site could look like as well as dangers associated with chemicals left behind.		

23	Class Title: Outdoor Man Made Hazards	Instructor: Ron Malamphy - USFS
Class Length: 1 hour		Offered: Fri 1-2, Sat 1-2
Track: General		Interest: Beginner as well as Experienced members
Class Description: Presentation will cover outdoor man made hazards, marijuana gardens and the like – what types of dangers might a SAR Volunteer come across while on a SAR Mission.		

24	Class Title: WSP Airplane – FLIR and Video	Instructor: WSP
Class Length: 1 hour		Offered: Sat 10-11 & 1-2
Track: General / Management		Interest: Beginner as well as Experienced members
Class Description: This class will cover the Washington State Patrols aircraft capabilities to include information on their FLIR and Video mounted in the aircraft.		

25	Class Title: Air Search in Washington State	Instructor: Tom Peterson
Class Length: 1 hour		Offered: Sat 9-10 & 2-3
Track: General / Management		Interest: Beginner as well as Experienced members
Class Description: This session gives an overview of how Air SAR/Aviation Emergency Services is organized and conducted in Washington. WSDOT Aviation is responsible by law for aerial SAR in the state. We will look at how missions begin and end as well as how important the relationship is between GSAR and ASAR organizations. Recent case histories will be reviewed to illustrate those relationships.		

26	Class Title: Basic Helicopter Class	Instructor: USAF
Class Length: 1 hour		Offered: Fri 9-10 & 1-2, Sat 8-9 & 11-12, Sun 8-9
Track: General – WAC		Interest: Beginner as well as Experienced members
Class Description: This class satisfies the Basic Helicopter WAC requirement for SAR Volunteers.		

27	Class Title: Capsule Training	Instructor: Jim Hightower, Tiffany Clement
Class Length: 2 hours		Offered: Sat 1-3
Track: Dive – Hands On Course		Interest: Dive Team Members

Class Description: How to evacuate and person from a capsule or cockpit under water. Students must provide their own equipment. **4/27 – Pool will be available on site for this class.**

28	Class Title: Decompression Tables	Instructor: Jim Hightower
Class Length: 1 hour		Offered: Sat 8-9
Track: Dive		Interest: Dive Team Members
Class Description: The use of decompression tables, not using your computer, for those who have forgotten how to use the tables.		

29	Class Title: Surface Supplied Air	Instructor: Ken Dean
Class Length: 2 hours		Offered: Sun 8-10
Track: Dive – Hands on Course		Interest: Dive Team Members
Class Description: Divers will learn how to use surface supplied air in a dive environment.		

30	Class Title: Underwater Investigations	Instructor: Ken Dean
Class Length: 12 hours		Friday 1-5 classroom, Sat 8-5 in water
Track: Dive – Hands on Course		Interest: Dive Team Members
Class Description: Attendees must attend Friday's class which is lecture, Saturday attendee's will be in water all day.		

31	Class Title: MSAR Open Field Search Techniques	Instructor: Paul Fleming
Class Length: 2 hours		Offered: Sat 3-5
Track: Horse – Hands on Course		Interest: Mounted Search and Rescue
Class Description: To teach mounted units how to search large areas using search patterns to ensure a high POD. Class has practical exercise for mounted teams of four to six riders to learn to efficiently search open areas looking for evidence, clues or trails. Students must bring their own horse.		

32	Class Title: Mounted Subject Evacuation	Instructor: Paul Fleming
Class Length: 2		Offered: Sat 8-10
Track: Horse		Interest: Mounted Search and Rescue
Class Description: This course is designed to teach MSAR teams and ground team members how to safely evacuate injured subjects on horseback. Course will include lecture and practical demonstration.		

33	Class Title: MSAR Round Table	Instructor: Paul Fleming
Class Length: 1 hour		Offered: Fri 4-5
Track: Horse		Interest: Mounted Search and Rescue
Class Description: Discuss items of mutual interest and joint training opportunities.		

34	Class Title: Vet Medicine for Horse Teams	Instructor: Dr. Pat Roden
Class Length: 1 hour		Offered: Sat 10-11
Track: Horse		Interest: Mounted Search and Rescue
Class Description: Dr Roden will talk about general horse care and answer questions regarding medical issues relating to horses.		

35	Class Title: Packing Equipment on Horses	Instructor: Pat Embum
Class Length: 2 hours		Offered: Sat 1-3
Track: Horse – Hands on Course		Interest: Mounted Search and Rescue
Class Description: Instructor will cover how to load equipment by use of pack saddles and bags.		

36	Class Title: Map and Compass for Mounted Teams	Instructor: Pat Embum
Class Length: 3 hours		Offered: Fri 1-4
Track: Horse – Hands on Course		Interest: Mounted Search and Rescue
Class Description: Attendees will do a map and compass course on horse back.		

37	Class Title: Trail Ride	Instructor: Pat Embum
Class Length: 2		Offered: Fri 10-12, Sun 8-10
Track: Horse – Hands on Course		Interest: Mounted Search and Rescue
Class Description: Hands on course – attendees must bring your own horses to participate in the trail ride.		

38	Class Title: HOT Loads for K-9's	Instructor: USAF
Class Length: 2 hours		Offered: Sat 1-3
Track: K-9		Interest: K-9 Teams
Class Description: K-9 Teams will be allowed to practice loading and unloading from a helicopter while the engines are running. Teams must provide proof of completion of Basic Helicopter course either at the Conference or by written form from home County SAR Coordinator. Members must have proper equipment to include, helmet and eye protection to participate in Hot Loads.		

39	Class Title: Basic Canine First Aid	Instructor: Jon Wieringa
Class Length: 2 hours		Offered: Sat 4-6
Track: K-9		Interest: K-9 Teams
Class Description: Canine first aid for the SAR K-9 Handler, Basics of trauma, shock, and disease processes that affect the working dog, geared towards initial treatment in the field and assuming delayed hospital treatment.		

40	Class Title: K-9 Area Search Tactics	Instructor: Tony Copes
Class Length: 5 hours		Offered: Fri 8-1, Sat 8-1, Sun 8-1
Track: K-9		Interest: K-9 Teams
Class Description: This course will help the K-9 Team (human half) become better able to develop initial tactics with which to start the search of an area, and adapt those tactics to changing conditions and information. It is intended for both experienced handlers (trailing and/or air scent), and new handlers/handlers in training. Learning will be through discussion of factors affecting searches including the Meteorology of Scent, aka Scent Behavior, and map problems and discussion, Class will be lecture plus 3 hours of field work if feasible.		

41	Class Title: Air Scent: Solidifying the Trained Indicator and Refind	Instructor: Josh Gerstman, Jonathan Brown & Jacob Gerstman
Class Length: 2		Offered: Sat 8-10 & 1-3, Sun 8-10

Track: K-9	Interest: K-9 Teams
Class Description: This class is good for basic to intermediate air scent handlers as well as canine trainers who want to solidify the trained indicator. This class will review some foundational training, provide attendees opportunity for paws-on training to work on the indicator and refind.	

42	Class Title: Working Canines and Trackers Together	Instructor: Sharon Ward
Class Length: 1		Offered: Fri 3-4, Sat 3-4
Track: K-9		Interest: K-9 Teams
Class Description: Canines and Man-trackers are two highly valuable resources in the search for missing persons. There is no good reason for not using both resources simultaneously in the field. This presentation will provide information and tips for utilizing both resources for maximum efficiency in the effort to find the lost ones.		

43	Class Title: Rigging System Awareness	Instructor: Gordon Smith, Doug Hutton and Steve Allen
Class Length: 3 hours		Offered: Sunday 1-4
Track: Rope		Interest: Beginners as well as experienced
Class Description: This session teaches "rigging system awareness" and demonstrates rescue rigging. No previous rigging knowledge is needed, no special equipment is needed, and participants will remain on the ground. The demonstration will be a highline across a river. The highline includes components of basic raising and lowering systems, and these components and their functions will be described and demonstrated. The instructors will measure forces on the system and participants will be able to see how forces vary with changes in the load on the system and changes in the angles in the system. The session will give participants an understanding of the kinds of lifting and lowering that Washington State Mountain Rescue groups normally do, and an awareness of how to operate safely around rescue rigging systems.		

44	Class Title: Heavy Rescue	Instructor: WA ST DOT
Class Length: 2 hours		Offered: Friday 1-3
Track: Rope		Interest: Beginners as well as refresher
Class Description: Members of the WA State DOT Heavy Recue Team will demonstrate lifting procedures using manpower instead of mechanical devices.		

45	Class Title: Personal Rope Rescue	Instructor: James McNutt
Class Length: 1 ½ Hours		Offered: Fri 10-12, Sat 1-3, Sun 1-3
Track: Rope		Interest: Beginners as well as refresher
Class Description: Personal Rope Rescue will teach every SAR member how to be safe with rope with feet on the ground.		

46	Class Title: Swift Water Awareness	Instructor: Chris Jonason & Abe Herrera – Wave Trek Rescue
Class Length: 4 hours		Offered: Sat 8-12 & Sun 8-12
Track: Water / General		Interest: Those interested in working around water
Class Description: This class will be 4 hours in length and introduce students to Swift Water Awareness. Includes lecture and some hands on work with throw bags.		

47	Class Title: ATV Safety Course - Basic	Instructor: Gene Ellis & Gary Loth
Class Length: 4 hours		Offered: Fri 1-5, Sat 8-12
Track: ATV / 4X4		Interest: ATV SAR Members
Class Description: This four hour course will teach the Basic ATV Course. Attendees must bring their own ATV and personal protective clothing for the class.		

48	Class Title: ATV Advanced Course	Instructor: Gene Ellis & Gary Loth
Class Length: 2.5 Hours		Offered: Sat 1-3:30, Sun 8-10:30
Track: ATV / 4X4		Interest: ATV SAR Members
Class Description: Advanced safety course with trail ride. Attendees must bring their own ATV and personal protective clothing for the class.		

49	Class Title: Snowmobiles and Winter Travel	Instructor: Gary Loth
Class Length: 1 ½ hours		Offered: Fri 10-11:30, Sat 4-5:30, Sun 11-12:30
Track: ATV / 4X4		Interest: General, Snowmobile SAR Teams
Class Description: Course will cover general use of snowmobiles and winter travel.		

50	Class Title: 4X4 Basic	Instructor: Fred Knight
Class Length: 1 hour		Offered: Fri 9-10
Track: ATV / 4X4		Interest: 4X4 Teams
Class Description: Basic Class on the use of 4X4's in SAR		

51	Class Title: 4X4 Advanced	Instructor: Fred Knight
Class Length: 1 hour		Offered: Fri 1-2
Track: ATV / 4X4		Interest: 4X4 Teams
Class Description: Advanced Class on the use of 4X4's in SAR		

52	Class Title: V150 Demo	Instructor: Tim English
Class Length: 1 hour		Offered: Fri 4-5, Sun 9-10
Track: ATV / 4X4		Interest: General
Class Description: Lewis County will demonstrate the capability of their V150 which is has been used during SWAT missions and Flood events in our County.		

53	Class Title: ATV Trailers and Equipment	Instructor: Steve Lee
Class Length: 1 hour		Offered: Fri 8-9, Sat 3-4, Sun 11-12
Track: ATV / 4X4		Interest: ATV, Snowmobile, General
Class Description: Instructor will talk about equipment available for towing gear and or injured persons by ATV, UTV or Snowmobiles. Demonstration of new Lewis County Rescue Trailer.		

54	Class Title: SAR Team Growth and Retention	Instructor: Rob Brewer
Class Length: 2 hours		Offered: Fri 1-3, Sat 3-5
Track: Management / General		Interest: All
Class Description: Recruiting new people to your SAR unit is an ongoing effort, as is retaining the members you already have. If you are like me, you reached the bottom of the fresh idea bin some		

time ago. In this presentation, we will use group exercises o brainstorm fresh ideas and reinvigorate old ideas to enhance recruiting efforts and retention programs. Our goal is to work together, identify the problems we each face, and develop plans to work through those recruitment and retention problems.

55	Class Title: Search Theory for the Searcher	Instructor: Tony Copes
Class Length: 2 hours		Offered: Fri 3-5, Sat 3-5
Track: Management / General		Interest: All
Class Description: Most presentations of the theory of search are geared to search managers and do not talk much about eh variability of coverage estimates. This session is aimed at those who are out in the field, those who are working for the search managers planning the search and keeping track of the progress of the search, and search managers hoping to gain an appreciation of the variability involved in detection probability estimation. This course will include a map exercise and discussion.		

56	Class Title: Interviewing	Instructor: Chris Young
Class Length: 4 hours		Offered: Fri 1-5
Track: Management / General		Interest: All
Class Description: Interviewing is an important part of search investigation and yet is often a hastily done and incomplete task. In may searches especially in an urban environment, an interview may be the largest generator of clues on where to search. This presentation will discuss why we need to interview and compare and contrast interview and interrogation in law enforcement and the unique requirements and needs in the Search and Rescue world.		

57	Class Title: Searching in the Age of Online Social Networks	Instructor: Chris Young
Class Length: 2 hours		Offered: Sat 8-10 & 1-3
Track: Management / General		Interest: All
Class Description: As technology and information super highway advances, so has its use in the search for a missing person. Recent documented cases have show that pure investigation using the Internet have resulted in the location of missing persons, thus preventing unnecessary use of valuable resources in the field, giving the phrase "Internet Search" a whole new meaning. This presentation will explore a multitude of social networks, blogs, wiki sites, and the mechanics of moving around in these new cyber spaces.		

58	Class Title: Introduction to Search and Search Management in the Urban Environment	Instructor: Chris Young
Class Length: 8 hours		Offered: Sunday 0800-1700
Track: Management		Interest: All
Class Description: More and more search and rescue teams are interfacing with law enforcement in locating missing persons in the Urban Environment. This presentation will prepare managers and searchers for the specific tasks and special techniques needed for searching in the Urban Environment. This will include comparing and contrasting the Urban/Suburban/Rural Interface with the Wilderness Search Processes, from Pre-plan through managing Urban Incidents, Special Investigation considerations, as well as the use of SAR Resources, and Documentation requirements'. There will also be discussions on how to sep up practice sessions for door-to-door interviewing/neighborhood canvassing. This presentation also covers an introduction to special		

considerations in Child Abduction searches and the Dementia/Alzheimer's wanderer searches in an urban setting. A copy of Mr. Young's book *Urban Search* will be provided to each participant.

59	Class Title: Storms of the Century	Instructor: Gene Seiber
Class Length: 1 ½ hours		Offered: Fri 11-12:30, Sat 1-2:30
Track: Management / General		Interest: All
Class Description: Chief Seiber's presentation will cover lessons learned during the past three massive flood events in Lewis County. His presentation will include response, rescues and recovery from the declared disasters striking Lewis County in 2006, 2007 & 2009.		

60	Class Title: Searching for the suicidal person	Instructor: Rebecca Dennis - LAPD
Class Length: 2 hours		Offered: Fri 1-3, Sat 4-6, Sun 1-3
Track: Management		Interest: All
Class Description: This lecture includes basic information about suicide, general statistics, warning signs, risk factors and suicide myths. It also includes interventions specifically tailored to SAR personnel.		

61	Class Title: SAR Initial Response	Instructor: Hugh Dougher
Class Length: 2 hours		Offered: Sat 8-10, Sun 10-12
Track: All		Interest: All
Class Description:		

62	Class Title: Important Trends in Search and Rescue Management	Instructor: Dr. Paul Green
Class Length: 2 hours		Offered: Sat 1-3, Sun 1-3
Track: All		Interest: All
Class Description:		

63	Class Title: Search and Rescue Leadership	Instructor: Dr. Paul Green
Class Length: 2 hours		Offered: Sat 10-12, Sun 10-12
Track: All		Interest: All
Class Description:		

64	Class Title: Missing Aircraft Data	Instructor: Robert Koester
Class Length: 2 hours		Offered: Sat 3-5, Sun 8-10
Track: All		Interest: All
Class Description:		

65	Class Title: Search Team Leader Development	Instructor: Richard Smith
Class Length: 2 hours		Offered: Sat 1-3, Sun 8-10
Track: All		Interest: All
Class Description:		

66	Class Title: Team Leadership Training	Instructor: Karl Melseth & Meredith Myers
----	---------------------------------------	---

Class Length: 1 hour	Offered: Fri 1-2, Sat 8-9 & 3-4
Track: All	Interest: Beginners as well as experienced
Class Description: Development of leadership skills, interpersonal communications and management techniques	

67	Class Title: Electrical Hazards	Instructor: Lewis County PUD
Class Length: 1 hour		Offered: Friday 9-10 & 11-12
Track: Volunteers		
Class Description: Instructor will discuss the hazards associated with downed power lines, and what electricity will do to a person if they come in contact with these lines.		

68	Class Title: Pipeline Safety	Instructor: Williams Pipeline Company
Class Length: 1 hour		Offered: Friday 10-11 & 2-3
Track: Volunteers		

69	Class Title: Railroad Hazards & Safety	Instructor: Dean Dahlin
Class Length: 1 hour		Offered: Friday 11-12 & 3-4
Track: Volunteers		
Class Description: Operation Live Saver, instructor will cover railroad track safety and other valuable information concerning the railroad.		

70	Class Title: Dementia Data	Instructor: Robert Koester
Class Length: 1 hour		Offered: Saturday 10-noon
Track: Volunteers		

	Class Title: WASSARCA Meeting	
Class Length: 1 hour		Offered: Friday 5-6pm
Track: Coordinators		
Class Description: Washington State SAR Coordinators Meeting		

	Class Title: SARVAC Meeting	
Class Length: 1 hour		Offered: Friday 6-7pm
Track: Volunteers		
Class Description: Search and Rescue Volunteer Association Meeting
